

# TITLE

---

By

First Last Name

# Information

- Information about chosen project
- Don't put too much information here.
- Split your information/facts using a couple of slides.
- Make sure to put some pictures in each slide pertaining to your project.

# Information

- More info/facts
- Check your spelling

# Design procedure (only if you are building it physically)

- Use can use your procedures from your design folder over here.
- Put your steps in point form if you want
- Don't go into every detail, but provide enough information on how you built your project
- Put a picture or two of your project before it was completed.

# Design procedure (only if you are building it physically)

- Put a picture or two of your project when it near completion.
- Then show to the class your final product.
- \*Note: If you are building your project via Minecraft your design procedure should be part of your tour\*

# Bibliography

- List your sources (i.e. website, magazine, book, etc...)
- This is your last slide
